THE CONVENTION AT BELMONT NEXT SATURDAY .- We would urge upon the Union men of the various Townships of Belmont County the importance of attending the County Union Convention, at Belmont, next Saturday, in order that the feel ings and wishes of the people may be truly and correctly represented by the delegates selected to represent them, both in the County Convention and in the District Congressional Convention. All know the importance of this canvass on the future of the

The Township delegates to the Congres sional Convention should be selected at the same time the Townships are electing delegates to the County Convention, so that the delegates for the county at large may be selected by the delegate convention without interfering with them

LE SINCE the nomination of Fremont by the "Radical Democracy" we have made diligent inquiry of citizens from all parts of the county as to his prospects, and have as yet been unable to hear of a single Union man who intends to vote for him. We have heard of quite a number of butternuts who talk of voting for him; if McClellan should be nominated by the Chicago Convention, but we don't see that their talk on that subject will do much harm. If the Copperheads were not so very much in favor of Fremont, it is possible that he might get a few votes in this county, but the fact that they think the Re-Republicans certain that they ought to do no such thing.

The printer of money is badly in need; Take notice delinquents, and think as you read wa little sent now, and a little again. Will give vigor and saap to the point of his pen.

THERE has been some talk in the county in reference to the Congressional Convention, and several Belmont men have been named in connection with the matter, as suitable persons to be presented to that Convention for nomination. The Convention to be held at Belmont on Saturday should dispose of this question, years of age, for post and garrison duty, and determine whose name should be presented to that Convention as the choice of this county, and instruct the delegates ac-

Attack on Sheridan's Cavalry. NEW YORK, June 28th.

The Herald's special, dated City Point, 26th. says the attack on Sheridan cavalry, day before yesterday, while marching from White House to James River, was a very determined and bloody affair. They made what they considered ample arrange-ments to capture his guns, trains and most of his command. The details of the affair have not yet transpired here up to the de-parture of the mail boat, but it is known that the enemy fell upon the brigade composing the rear guard with great fury and at first threw them into much confusion. -They immediately rallied to cover this movement, and held the enemy's cavalry and infantry in check until the balance of the command could be brought to their support, when a general battle ensued between our mounted and dismounted cavalry, and the cavalry, infantry and artillery on the part of the enemy. Sheridan acted on the defensive and repelled several of the most desperate assaults that could possibly be made. His light artillery was brought into play and was admirably served. The fighting was at short range, and grape and can-nister were used with terrible effect. At the end of the conflict he succeeded in best ing them off, though greatly superior in numbers, and resumed his march to the James River, without the loss of a gun or wagon. His killed, wounded and missing may reach 500. among whom are five Col-
